Lich Pt Tree House

Summary
The ultimate Ketchikan Alaska vacation home!

Description
Are you looking for the ultimate vacation experience? Look no further, this luxury tree house is truly unique and the only tree house that actually has a hemlock tree growing through the center in an enclosed tree tower!

The two story, custom built, tree house can accommodate up to 5 people. It has two bedrooms. The upper floor bedroom has a king bed that can be made up as two extra long twin beds. This room has vaulted ceilings. There is a half bath on the upper floor and a small deck with a spectacular ocean view.

The lower floor bedroom has a queen bed. There is a full bath on the lower floor.

There is a small loft room on the upper floor with a twin size window bed. It overlooks the living room. This room adjoins to the upper floor bedroom. This little window nook would be a wonderful place to curl up and enjoy the ocean view.

You will appreciate the hand milled cedar trim and all the unique detailed touches in the Alaskan decor. We can sum it up by calling it romantic, adventurous and exclusive with a million dollar ocean view! It is located within walking distance to the marina and some of the best fishing Alaska has to offer. Lich Pt Tree House has it all for the traveler looking to make the most of a Ketchikan adventure.

The house was actually built around a hemlock tree. The "tree tower" is one of the most interesting architectural features of the house. Windows surround the tower so you can watch from inside as squirrels and birds scurry or
flutter about the tree. A winding cedar staircase leads you around the tree from the lower floor to the upper area. There is a round window at the top of the tower on all four sides. From the water the house looks quite interesting with the hemlock tree protruding from the center of the tower.
